Lowndes County Septic Tank Permit Application Process

1. Submit a completed Site Evaluation Request with the following items:
 - a. Recorded plat of the property.
 - b. Floor plan of the home (can be hand drawn).
 - c. Site plan showing location of the house, existing wells, driveways, pools, out buildings, property lines and proposed location of where you would like your septic system and well, if needed.
2. Obtain a letter of approval from the Lowndes County Zoning Office located at 327 N. Ashley Street in the Lowndes County Judicial Building. 229-671-2340
3. Obtain the 911 address from the City of Valdosta Building Inspections Office at 300 N. Lee Street in City Hall Annex. 229-259-3506
4. The home must be staked off and property lines marked.
5. The site evaluation and permit fee for a new system is \$180 due upon application.
6. If you do not wish to obtain a permit, but would like to have land checked for suitability, submit a completed application with a plat of the property and \$90 evaluation fee. Note on the application you want a site evaluation only. (House does not have to be staked for site evaluation only.)
7. To repair your drain field, submit an application and note on the application you only need a repair of the drain field. The repair site evaluation and permit fee is \$90 due upon application.
8. If applying for a well permit only, the fee is \$60. If applied for at same time as a septic tank permit there will be no additional charge for the well permit. Note on the septic tank application that you would like a well permit.
9. All documentation must be submitted to the health department. Please provide thorough directions to the site.
10. If you have any questions, call the Environmental Health Office at 229-245-2314.

SKETCH

The above information as furnished is true and correct to the best of my knowledge. The applicant and/or owners *are* responsible for adverse soil conditions, such as rock or water tables, encountered. Sites with poor percolation, redoximorphic features or impervious soil horizons within 24 inches of the planned absorptions trench bottom, a seasonal high-water table within 30 inches of the original ground surface or any other questionable soil features will be referred to a certified soil classifier, registered engineer or registered geologist for evaluation. Visit <http://health.state.ga.us/programs/envservices/landuse.asp> for rules, product information, certified professionals, home owner's guides, etc.
